The “Zin Fux” ski hut in Sexten

Aluminium window walls in the catering trade.

In the midst of the idyllic mountain world around Sexten in South Tyrol can be found the new “Zin Fux” ski hut, whose modern Alpine style blends into the environment. The tree trunks positioned in front of the glass surfaces produce a pleasant forest atmosphere on the terrace and in the interior. The two-storey ski restaurant appears quite compact to the rear, with FIN-Project windows providing for clean lines and minimal apertures. To the front, on the other hand, the ambiance is dominated by wide FIN-Vista glazing. The narrow-framed window walls offer breathtaking views while the uPVC cores mean outstanding heat insulation.

Products used

U_w - Heat transmittance coefficient of window element

R_w - Sound insulation properties of a window

npd - No performance determined

FIN-Project Nova-line 78/88

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

1,2 / 0,82 W/m²K

U_w 2-sash 2-/3-glazing:

1,2 / 0,94 W/m²K

R_w Standard:

38 (-2;-6) db

R_w Best value:

45 (-1;-4) db

FIN-Vista

aluminium-aluminium

Modular mullion-transom system for window walls. Can be combined with all windows, sliding and folding doors.

U_w 1-sash 2-/3-glazing:

1,3 / 0,81 W/m²K

R_w Standard:

34 (-2;-6) db

R_w Best value:

44 (-2;-6) db
