Holiday home on Lake Garda

A spectacular panorama with FIN-Vista.

Maximum glass, maximum views: this was the clients' specification. And, with Lake Garda at your feet, that is all you need. Architect Matteo Brighenti planned a light and airy holiday home whose façade would open onto the lake via a horizontal, three-part glass façade offering panoramic views.

This modern building is so designed that all rooms are oriented towards the lake view. In order to maximise the glass surface, frameless FIN-Vista window walls and opening sashes from the Cristal design line were installed in the façade. This version means that the aluminium frame disappears under the enamelled glass, making the transition from glass to frame invisible. In this way the window becomes a design element that significantly influences the spatial effect. The sliding doors open wide onto the pool on the first floor and the terrace on the second, removing the visual boundary between indoors and outdoors while protecting against summer heat, rain and wind.

Type of building	Single-family dwelling
Construction	2020
Project	New build/conversion
Planning	Architekt Matteo Brighenti

Country	Italy
Region	Veneto
Locality	Torri del Benaco
Photographer	Connolly Weber Photography

Products used

U_w - Heat transmittance coefficient of window element

R_w - Sound insulation properties of a window

npd - No performance determined

FIN-Vista

aluminium-aluminium

Modular mullion-transom system for window walls. Can be combined with all windows, sliding and folding doors.

FIN-Slide Slim-line Cristal 170

aluminium-aluminium

U_w 1-sash 2-/3-glazing:

- / 0,91 W/m²K

U_w 2-sash 2-/3-glazing:

- / 1,0 W/m²K

R_w Best value:

39 (-1;-3) db
