

FIN-Project Slim-line 78/88
aluminium-aluminium

Seeschupfe mountain restaurant

Outside, the lake. Inside, the steak. Glass connects.

You also eat with your eyes. So relishing your meal while surveying the idyllic lake setting satisfies all your senses. Large glass walls give visitors to this 2023-remodelled restaurant in the Dolomites a taste of sitting high in the mountains. Our FIN-Vista window wall system – combinable with all opening options in our range – showcases both restaurant interior and natural backdrop. The FIN-Slide sliding units in the dining rooms can be readily opened or closed for a pleasant spatial experience all day and year round.

And then there are the visuals: aluminium in the colour Sablé Anthracite Grey as frame material on interior and exterior blends harmoniously with the predominantly wooden architecture. With the specified Nova-line Plus frame shape, the sash frames are completely concealed by glass on the exterior, with the glass edge enamelled in Jet Black at the rear. This contemporary minimalist look creates an agreeable contrast with lake and mountainscape.
